The Q® grills range in size from the smallest portable Q® 1000™ gas grill; ideal for the thrill-seeking griller on the go, to the largest Q® 3200™ gas grill made for the city dweller with a small patio. Also featured in the series are two electric portable grills. Just plug the electric grill into an outdoor electrical supply and expect the same superior results as the gas grill. All Q® grills ignite with a push of a button and are equipped with porcelain-enameled, cast-iron cooking grates.

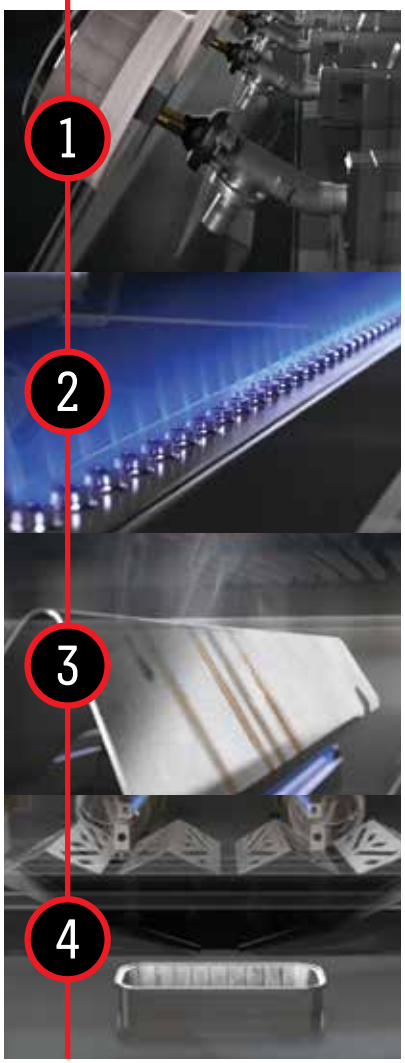
GS4™ HIGH PERFORMANCE GRILLING SYSTEM



INFINITY™ IGNITION

The Infinity Ignition is guaranteed to ignite every time. Backed by a generous warranty, rest assured that you'll be up-and-grilling the first time, every time.

HIGH PERFORMANCE BURNERS

The unique, tapered shape delivers a consistent gas flow from front to back. This provides ultimate heat distribution, ensuring that food grills evenly and consistently anywhere on the cooking grate.

FLAVORIZER® BARS

The classic Weber® Flavorizer bars are angled just right to catch drippings that smoke and sizzle, adding that irresistible smoky flavor we all know and love to your food. Any drippings not vaporized follow the slope and are funneled away from the burners, down into the grease management system.

GREASE MANAGEMENT SYSTEM

The grease management system helps with the removal of grease while reducing the risk of flare-ups. Drippings that are not vaporized by the Flavorizer bars are funneled away from the burners into the disposable drip tray, located within the catch pan under the cookbox. Simply remove the catch pan and replace the drip tray as needed.

iGRILL® 3 READY

TAKE THE **GUESSWORK** OUT OF GRILLING.

iGRILL® 3 DEVICE SOLD SEPARATELY

7204 WEBER® iGRILL® 3

The iGrill® 3 digital Bluetooth® thermometer monitors the internal temperature of food from beginning to end, and will notify you once reached the perfect degree to serve.

Each Genesis® II and Genesis® II LX grill is iGrill® 3 Ready. This means that you can install the iGrill® 3 digital Bluetooth® thermometer into the side table and sync it to your mobile device. Simply download the Weber iGrill® app on your mobile device and sync it to your Genesis® II or Genesis® II LX.

Connect up to four temperature probes and monitor your steak, chicken, or roasts all at one time. The iGrill® app also displays the amount of fuel left in your gas tank.
