

In Case of An Emergency, Call 911

If you identify a spill, potential spill or fire hazard, Call Jody Dechant at 970.379.2892 immediately

1. This contractor's yard is intended to provide larger scale storage for contractors and storage customers. This facility is not intended for full time employees or operations that could potentially create fire, environmental spills or nuisance of any kind. All Valley Storage reserves the right to prohibit any activity at its own discretion.
2. Smoking is prohibited at all times.
3. Open Fires or burning of any materials is prohibited.
4. The storage of bulk materials that are flammable is prohibited.
5. Extension cables shall not be strewn across any site overnight or unattended. Additionally, extension cables are not allowed to be located where they can be driven over.
6. Extension Cables must be in good condition, no breaks in sheathing of the cord are permitted.
7. Any items requiring power over night shall be required to be located within 25 feet of power source.
8. Potentially Hazardous materials or petroleum hydrocarbon materials, such as diesel and gasoline, cannot be stored on the Site. The only exceptions to this policy are:
 - A. A limit of two containers under 10 gallons per yard space shall be permitted (large yards only)
 - B. They must be stored in approved steel safety cans
 - C. They must be stored inside a trailer or structure on the site and in flammable storage lockers. A list of Approved locker types can be provided upon request.
 - D. Underwriter Laboratory approved tanks installed in pickup truck beds are permitted.
9. The storage of pesticides, herbicides, fertilizer and radioactive materials is strictly prohibited.
10. All potentially hazardous materials except for petroleum hydrocarbons are to be stored on the Site in the original containers in which they were purchased, and these containers are to be stored inside a structure or trailer on the Site. Additionally, all contractors are required to maintain a set of material safety sheets on Site, which will have information explaining the proper storage and safety precautions for all petroleum hydrocarbons and potentially hazardous materials stored at the Site.
11. Vehicle and Equipment Maintenance shall only be permitted if it does not involve any fluids or liquids that have the potential to spill such as changing tires, basic body work, etc. Examples of Vehicle Maintenance that are PROHIBITED are: oil changes, engine repair, transmission repair, etc.
12. No rags which have hazardous materials on them can be stored on site inside containers.

13. This Site has a no spill Policy. All Spills are to be immediately reported to Jody Dechant at 970.379.2898

14. All Valley Storage shall be provided access (keys and codes) to all locks at gates and containers or storage trailers for inspection as well as safety.

15. All gates shall be locked with a chain when not occupied and at the end of each business day. The Gauge of chain shall be able to be cut with standard bolt cutters as recommended by the Carbondale Rural Fire Prevention District.

16. All contractors are to maintain spill kits and 3 fire extinguishers on site. Additional information including approved lists can be provided upon request.
