

Civil Engineer I – Entry Level

Roaring Fork Engineering (RFE) is seeking an entry level Civil Engineer to join our team in Carbondale. The position is focused on land development, municipal infrastructure, transportation, water/wastewater, and water resource engineering. Our geographical market is the Roaring Fork Valley encompassing Aspen, Snowmass, Carbondale, Basalt and Glenwood Springs. RFE is a 10-person firm and is planning to expand in the region. We are seeking an entry level individual eager to learn and expand their civil engineering skill set. We have a diversified client mix including the City of Aspen, Habitat for Humanity, Aspen Skiing Company, Pitkin County, the Town of Carbondale, Basalt Sanitation District, as well as a number of architects and developers. The work environment is fast-paced nevertheless our culture strongly values a good work/life balance. All applications will be kept strictly confidential.

Typical Responsibilities:

- Design of assigned civil engineering projects.
- Production of plans and specifications.
- Typically will be working on multiple projects for multiple clients simultaneously.
- Interact with other disciplines and regulators as needed.
- Support the project manager.

Required skills/qualifications:

- Has obtained or prior to employment has obtained a Civil engineering degree.
- Has obtained EIT certification or able to obtain an EIT certification within 1 year of employment.

Additional Desired Skills:

- Proficient in Autodesk Civil 3D.
- Good interpersonal skills necessary for interacting with clients, regulatory agencies, and co-workers.
- Internship experience working in a consultant's office.
- Roaring Fork Valley experience.

Salary will depend on relevant experience. Other benefits include:

- Health, dental, fully funded. Retirement match.
- Paid time off: sick, vacation, holidays.
- Profit sharing.
- Comp time for hours worked over 40 per week, after a 6-month probationary period.
- Paid training.
- An Aspen Ski Pass with a flexible schedule to use it.

Provide with your resume a cover letter that explains your general focus of studies, course selection, and interests. Visit our site to apply: <https://www.rfeng.biz/careers/>
