

Aspen/Pitkin County Airport

ASE VISION PROCESS

April 29, 2019

Meeting Agenda

- Welcome and Opening Remarks
- Group Breakout Exercises
 - *Introductions and Guiding Principles*
 - *Exercise A: Listening – Identify core community values*
 - *Exercise B: Listening – Describe your vision for our airport 30 years from now*

Breakout Group DISCUSSIONS Values & Vision

Breakout Group Locations

Airport Vision Committee➔ Library Dunaway Room

Community Character Workgroup➔ 3rd Floor Maroon Bells Room

Airport Experience Workgroup➔ BOCC Meeting Room

Technical Workgroup➔ 2nd Floor Pyramid Peak Room

Focus Group➔ 1st Floor Roaring Fork Room

Meeting Objectives

Define community values to be incorporated into airport planning

Listen to one another and better understand our vision for the next 30 years

Collect initial insights on shared values for the future

Advisory Group Objectives

GROUP	OBJECTIVES
AIRPORT VISION COMMITTEE	Overarching advisory perspective focused on holistic vision and ultimate project design
COMMUNITY CHARACTER	Identify the values that reflect the character of our valley — and how to ensure that those values remain intact with any changes to the airport
AIRPORT EXPERIENCE	Express values that are important for airport users — and why they matter to you as a traveler or an airport neighbor
TECHNICAL	Address what it means to operate the airport smoothly — while ensuring a high margin of safety and security
FOCUS GROUP	Explore the common ground and tradeoffs that may arise among working groups — and what values are shared across all categories

Advisory Group Guiding Principles

ASE Vision: The future of Aspen/Pitkin County Airport

Consider the following as you think about the future of the Aspen/Pitkin County Airport:

- In addition to Safety – which is paramount for us all – please **identify three core community values** that are deeply important to guide the future of the airport in our valley?
- Describe your vision for our airport 30 years from now.
 - *What should it look like?*
 - *How should it feel?*
 - *What kind of experience should it offer?*
 - *What else you believe is important?*

How do our community values inform our vision for the airport's future?
