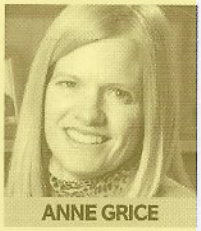
DEBORAH DAINE

▲ CASCADING CRYSTAL

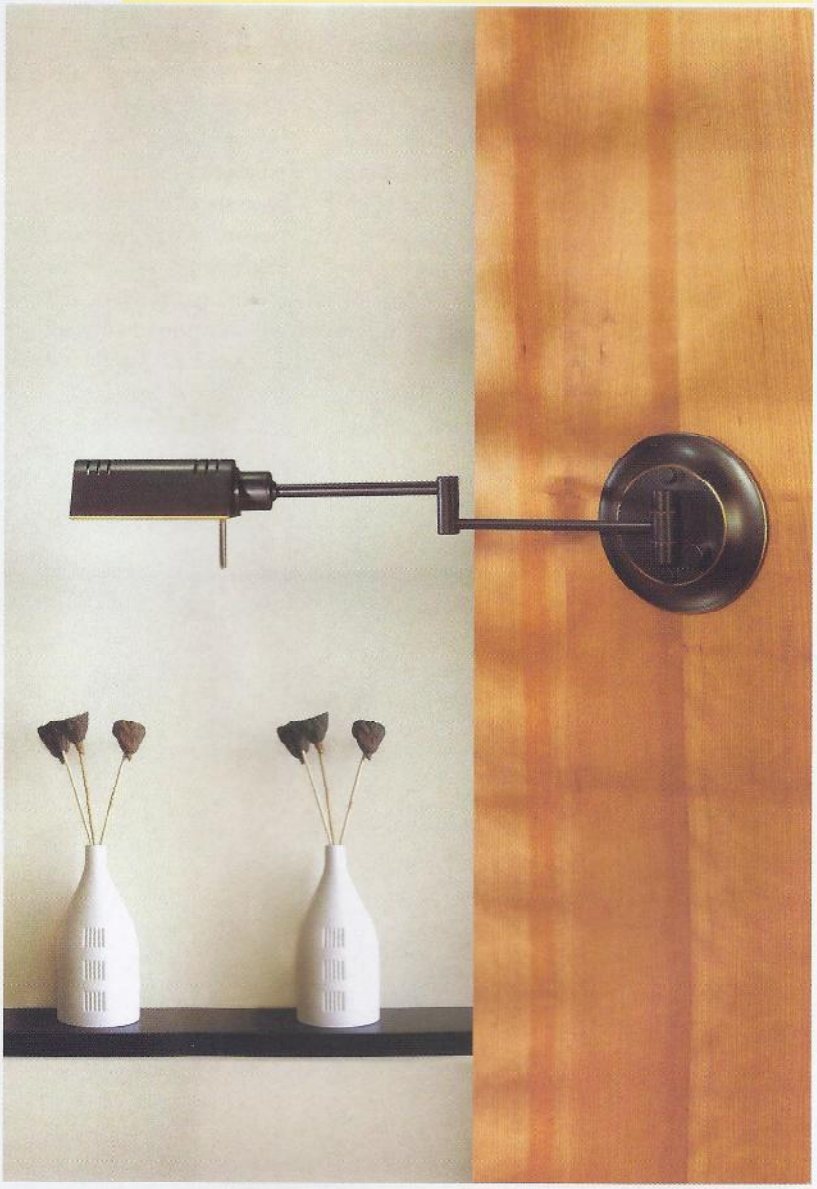
"I love this piece because it looks like a wall of cascading water, which creates a statement in any room with a peaceful, yet dynamic effect." **Boyd Lighting, www.boydlighting.com.** For more infomation: Deborah Daine Design, Aspen, 970.987.5051, www.deborahdaine.com

▼ SWINGING SCONCE



ANNE GRICE

"This classic, timeless design delivers function clad in a beautiful form. The finish alone allows us to accommodate a variety of different design and interior decorating situations, from the hunting cabin in Wyoming to the ultra-modern condominium overlooking Central Park in Manhattan." **Holtkötter, www.holtkoetter.com.** For more information: Anne Grice Interiors, Basalt, 970.927.1074, www.annegrice.com



MELANIE GRANT

◄ LIGHT ART

"We love this wall sconce. The lines are clean and architectural, yet with the mix of materials it becomes very sculptural. The crystal lens is a unique alternative to the typical sconces we are so used to seeing. Used in a series, such as down a long hallway, would allow for the fixtures themselves to become the art." **Holly Hunt Lighting, www.hollyhunt.com.** For more information: Poss Architecture + Planning, Aspen, 970.925.4755, www.billposs.com
