Our Story

Since 1979 the Mason family has been involved in New England agriculture. Jim Mason started as a commercial sheep shearer, shearing over a ¼ of a million sheep throughout the world. Lisa maintains a commercial greenhouse, Punch Brook Farm. Our construction company, Ag Structures, builds equine, dairy and livestock buildings. It is our pleasure, at the Grainbox, to serve you as many of New Hampshire's farm products as we can. Many of our meats, eggs, and syrups are produced right in this state. Ask us about our local products in our cooler and freezer. *"We proudly support the rural lifestyle"*.
