PERFECTION® PRO
BASEBALL

PERFORMANCE RAISED SEAM™
Featuring the consistent height, width, and durability the game demands.

COREBOND™
Keeps leather tight to the core, eliminating stretch and undue softness found in other baseballs.

BALLISTIC WINDING TECHNOLOGY™
Proprietary winding technology produces a more durable, high compression core for maximum performance.

Proud to be the Official Ball of these state associations:

Florida High School Athletic Association, Hawaii High School Athletic Association, Louisiana High School Athletic Association, Massachusetts Interscholastic Athletic Association, Dahu Interscholastic Association, Texas University Interscholastic League, Washington Interscholastic Activities Association

Dimpled Baseball PBB
- Optic yellow pitching machine ball
- 9” dimpled, official weight

AVAILABLE IN BUCKETS OF 2.5 DOZEN
**Why ruin another game ball?**

**DEFY THE RAIN**

with the

**ALL WEATHER™ BASEBALL**

• Save up to 50% of your baseball budget—don’t waste standard wound balls when it’s wet.
• Balls remain playable even when wet and return to original weight after 24 hours drying time.
• Differentiate from your official league baseballs with our blue seam.
• Also doubles as a great practice ball in dry conditions.

**The All Weather™ ball repels water!**

The All Weather ball and traditional ball are placed into water at the same time. After 20 minutes the traditional ball sinks due to moisture absorption while the All Weather ball is still afloat.

After 24 hrs in the water the All Weather ball is still floating! With 24 hrs of drying time, the All Weather ball has returned to its original weight, while the traditional ball remains un-playable.
